UNKNOWN DISEASE

This has been a proven technique:

We heard missionaries were using this technique in the jungles of South America:
If the problem is affecting lymph glands: collect sputum, put in a cup, add some water, swish around and throw out. Add more water to the cup, swish around, throw out. Add more water to the cup, swish around and drink. Do daily for several months. This is actually a homeopathic treatment.

If affecting other parts of the body: collect urine, put in a cup, add some water, swish around and throw out. Add more water to the cup, swish around, throw out. Add more water to the cup, swish around and drink. Do daily for several months.
